DEPARTMENT OF MATHEMATICS

Plan of Study for Program C

STUDENTS: Please consult our Undergraduate Handbook to see the lists of required and elective courses for the various Program C tracks. (Note you also can propose a program that is not already listed, and you can propose a program in one of the areas that differs from the template in the Handbook.) After that...

1. Consult with your advisor or Math DUS (Department of Mathematics Undergraduate Director) to agree on the list of courses you want to apply to your BA/BS in Mathematics Program C. After you and your advisor agree on the list of Courses:
2. Complete this form.
3. Obtain your math advisor's signature. This form also requires a Departmental Approval by DUS before it is finalized.
4. Give the form to Chris Brenneman, Mathematics Secretary, in Room 14 MLH or make an appointment with DUS for a direct approval.
5. If Program C isn't on your Degree Evaluation (found on ISIS) in a week, then please contact the DUS. Thanks.

To: Department of Mathematics _______________________  Date _______________________
From: (student's name) _____________________________  E-mail _______________________
(Student ID number) _______________________________  Phone _______________________

I request approval of the following list of courses to satisfy the requirements for a { BA   BS } [circle one] in Mathematics Program C, Mathematics+ ________________________________ [area]
(Be sure to include the required "core" courses, Calculus I etc., as well as the electives.)

<table>
<thead>
<tr>
<th>CORE COURSES</th>
<th>ELECTIVES</th>
</tr>
</thead>
<tbody>
<tr>

<td></td>
</tr>
</tbody>
</table>

PLEASE SEE OTHER SIDE FOR NECESSARY APPROVALS
ADVISOR: If this plan of study fits one of the templates in the Undergraduate Handbook, you don't need to do any more than sign here to indicate your endorsement. However, if the plan involves a modification of one of the "pre-approved" templates or an entirely new one, please indicate here your reasons for approving the new plan. You don't need to write a lot - the idea here is just to guide the UGC in understanding your view of the plan. Thanks very much.
